VARIABLE MESSAGE BOARDS

SMC 1000 ST THREE-LINE

STANDARD FEATURES

- On-board dedicated NTCIP-compliant controller
- 5 LEDs per pixel provide uniform light output
- Energy-efficient LED display provides minimal battery maintenance and long operational life
- Automatic intensity control provides optimum LED intensity
- Industrial-grade trailer provides stable platform
- Powder-coat paint for improved fade and scratch resistance
- Automotive-grade connectors

SMC 4000 MAST-MINI FULL MATRIX

STANDARD FEATURES

- On-board dedicated NTCIP controller provides easy programming with secure password protection
- Energy-efficient LED display provides minimal battery maintenance and long operational life
- Automatic intensity control provides optimum LED intensity
- Industrial-grade trailer provides stable platform
- 4 leveling jacks with slide-out extensions provide stability when deployed
- Powder-coat paint for improved fade and scratch resistance
- Calendar programming capability
- Full Matrix display (4' x 8') provides graphic messages and arrow board capability

PORTABLE TRAFFIC SIGNALS

RCF 2.4 AUTOMATED FLAGGER ASSISTANCE DEVICE

SINGLE-HEAD WITH GATE-ARM DESIGN FOR SHORT-TERM FLAGGING NEEDS.

The RCF 2.4 Automated Flagger Assistance Device is designed to be operated by a Traffic Control Person via remote control, from a safe location. One flag-person can control one or two units in work zones up to 800 feet long, or two flaggers can operate two units in work zones.

PTL 2.4LD PORTABLE TRAFFIC SIGNAL

DUAL HEAD, COMPACT DESIGN FOR SHORT-TERM TRAFFIC CONTROL NEEDS.

The PTL 2.4LD (Light Duty) model is ideal for daily setup to be used in lieu of flag-persons. It is capable of operating 24 hours a day for up to 7 days, before having to charge the batteries.
